A new volume of the Book-Lover's Library (A. C. mstrong & Co.) is "The Book of Noodles," by W. A. ouston, author of the capital work on popular tales of fictions. To the student of folk-lore this painsking collection will be specially welcome, and the one will be specially welcome, and the one will be specially welcome, and the one will be specially welcome. the absence of novelty in funny stories, no matter how far back they may be traced. It is interesting to follow the metamorphoses of old noodle stories from the banks of the Ganges to the banks of the Thames, Seine and Hudson. Even the wise men of Gotham have their Oriental prototypes, and in the "Panchatantra or the Adventures of the Guru Simple" may be found the origins of anecdotes which were to figure subsequently in the "Gesta Romanorum," and after passing thence to "Joe Miller's Vade Mecum, turn up with a fraudful protence of newness in the funny paragraphs of some Western American newspaper. Who is there that, in reflecting upon this yelle progression of the same monotones. sts, will not echo the malediction of old Donatus: Percants, qui ante nos nostra dixerunt!" Fancy e chagrin of the professed humerist who, after exgitating what in his innocence he thinks to be a and-new piece of fun, discovers the identical joke in one of the Jatakas, or Buddhist Birth Stories. Surely the discomfited inventor of comicalities might declare with the poet of pessimism, that "the world colls round forever like a mill," after making such a

esque Notes of Edinburgh" has been issued (Mac-illan & Co.), with a number of illustrations of varying degrees of merit. The little book is well deserving of a new issue, for it is instinct with the characteristics which are most attractive in Mr. Stevenson's writings. The "Notes" are really picturesque. They writings. The "Notes" are really picturesque. They are written in the easiest possible style, are pleasantly discursive, enlivened by local legend and anecdote, full of quaint conceits and bright bits of scenic description, and breathe throughout a love of "Caledonia stern and wild" which will go straight to the heart of every scotchman and of all who bear Scots' blood in their veins. Mr. Stevenson takes his reader long rambles through Old Edinburgh. He is strongly drawn by the artistic recommendations of that quarter of the city. He hovers in a kind of fascination about the "lauds," or hoary tenement houses, rivalling in height New-York's most soaring apartment buildings, and in squalor her most unsavery lodging-houses. He and in squalor her most unsavory lodging houses. He trian-Poland. is at home, too, among the grim legends such as that of Major Weir, and the stories of uncanny visitations at lonely farm-houses. In the description of the winter season he fairly glows, and if there be a doubt 1, 3 AND 5 BOND-ST., NEW-YORK. as to his personal sympathy with the national appreas to his personal sympathy with the hadden application of usquebaugh, it is evident that his imagina-tion is equal to even such Gargantuan symposia as Christopher North's lively fancy astonished the Southrons withal in the high-colored pictures of the " Noctes

The last volume of the Camelot Series (Thomas Whittaker) is a translation of three of the plays of Henrik Ibsen, a Norwegian dramatist who has a high reputation in his own country, and whose merits have been recognized wherever in Europe his works have been translated. The plays in this volume are "The Pillars of Society," "Ghosts," and "An Enemy of Society," and they are said to be representative ex-amples of the author's work. Each one has a distinct ethical lesson, which, however, is not permitted to interfere with artistic development. In the first, a man who has built up a high reputation on fraud and falsehood is the central figure. The drama is an atlanimity of society, and the same note pervades "An valuable lessons of loving kindness.

Enemy of Society," where the here is driven out of From The Nation Section 1. society for trying to purify the dangerously infected sources of some baths, upon which the community principally depends. "Ghosts" is a powerful and somewhat gruesome study of heredity. The ghosts are the tendencies derived from ancestors, which so often control the mental development and determine the physical constitution. In this case the sins of a and one which must be exceedingly impressive upon home and emphasis. His dialogue is nervous, clear and smart, his characters natural, and his plots simple and free from sensationalism. They have proved very popular in Norway, though it is by no means certain that they are adapted to a more sophisticated stage.

## New Publications.

THE PASTOK of a Methodist church in Illinois writes to the publishers of EDWARD EGGLE.

BTON'S new novel, "The Graysons," that he was present at the camp-meeting described in that story, "in which a man was killed, and the killing was charged to young Armstrong, whom Lincoin cleared." Tom Grayson of the novel is the ideal counterpart of Armstrong. The book is founded upon "a legendary account of one of President Lincoin's trials."

N O NEW-YORK COLLECTION IS NOW COMPLETE WITHOUT THE

HISTORY OF THE CITY OF NEW-YORK. By MRS. MARTHA J. LAMB.

Royal octavo, 318 illustrations.

Royal octave, 318 illustrations.

This work ranks with the best historical productions of the time; it is indorsed by George Bancroft, George William Curtis, E. C. Stedman, R. S. Storrs, D. D., Chauncey M. Depew, Senator Evarts, Mörgan Dix, D. D., and others, and by the whole Metropolitan Press. It contains the only popular account of the rise and growth of this great city. The political civil and social sides of New-York life are depicted, and old family history is given with particular accuracy. The position and magnitude of the metropolis of to-day are fully justified. "It given with particular accuracy. The position and mag-nitude of the metropolis of to-day are fully justified. "It is a work that would be cheap at double the price." 'It is worthy of a place in every American home," and is "an elegant gift-book." It is of acknowledged value in connection with the great historical centenaries, such as the approaching centennial celebration of the inauguration of George Washington, in New-York, as the first Presi-dent of the United States which is described. dent of the United States, which is described.

dent of the United States, which is described.
